# Installation Instructions 1016 Bracket kit

**NOTE:** This vehicle requires undercarriage plastic cover trimming.

**Step 1:** After removing plastic panels locate front mounting locations and hardware as per 1<sup>st</sup> page of this installation manual

**Step 2:** Remove the second rubber plug on the main chassis Figure 1, install provided HTC 230

**Step 3:** Locate outer mounting point, the rubber plug is directly inline with the inner rubber plug that was just removed. Figure 2 install provided HTC 243 as shown

**Step 4:** Attach main bracket to hardware, Figure 3 do not tighten.

**Step 5:** Locate rear mounting area and remove factory rubber plugs Figure 4. Install HTC 230 on inner most position and HTC 243 on remaining positions

# Installation Instructions 1016 Bracket kit

---

**Step 6:** Install extra support bracket onto HTC 243 as shown Figure 5

**Step 7:** Install rear main bracket onto HTC 230 as shown Figure 6, attach two brackets together using supplied M10 hardware.

**Step 8:** Proceed to last page of this manual for running board install instructions and torque values

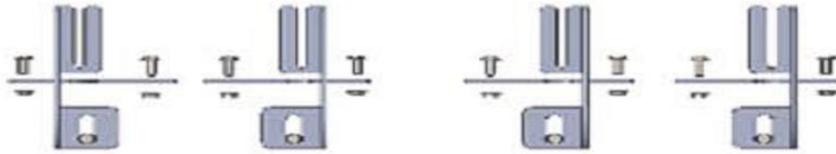

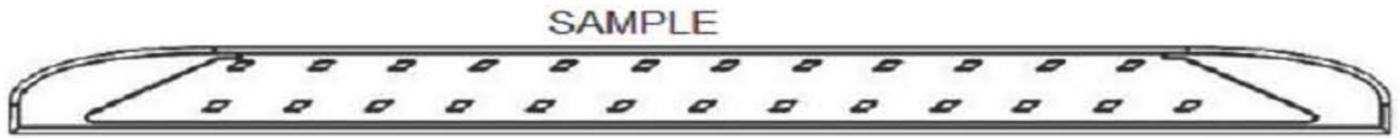

**Step 9:** Raise panels onto vehicle and mark locations to cut.

# Running Board Installation Instructions

**RAL / RB2 / REC / RCV / RZR**

**ROB / ROF / RPD**

- 1) Flip your Romik running boards onto a flat surface, make sure to place the running boards on a towel or cardboard in order to protect the surface Figure 1.
- 2) Loosen the M8 bolts on back of your running boards Figure 2. Depending on your model there will be either 6 or 8 bolts installed per side.
- 3) Once your brackets have been installed, place the running board onto the brackets as shown on Figure 3.
- 4) Adjust running boards, centering on vehicle. Hand tight M8 hardware on running boards.
- 5) Follow the torque procedures, torque M8 hardware to **7 ft-lbs** using a torque wrench.
- 6) Cleaning and maintaining your running boards is important, apply a light coat of a quality carnauba wax at least 2X per year. Wash often with mild soap and make sure to remove all soap residue. Many car automatic carwashes use a strong soap, make sure to use enough water to remove all residue.
- 7) Register your products at [www.Romik.com/contact/productregistration](http://www.Romik.com/contact/productregistration)
- 8) Warranty information at [www.Romik.com/warranty](http://www.Romik.com/warranty)
