# Installation Instructions 2620 Bracket Kit

**Step 1:** Locate front mounting locations and hardware as per 1<sup>st</sup> page of this installation manual. All mounting locations are identical please review bracket direction during installation.

**Step 2:** Install bracket using supplied M8 hardware Figure 2. Do not tighten. Repeat for remaining brackets.

Note: Images show washers, update hardware uses shoulder bolts with built in washers.

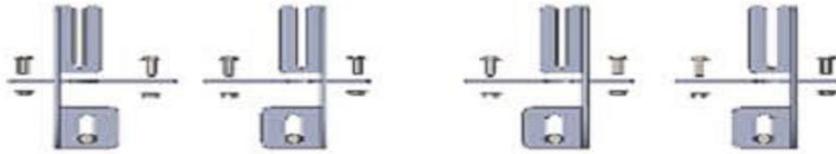

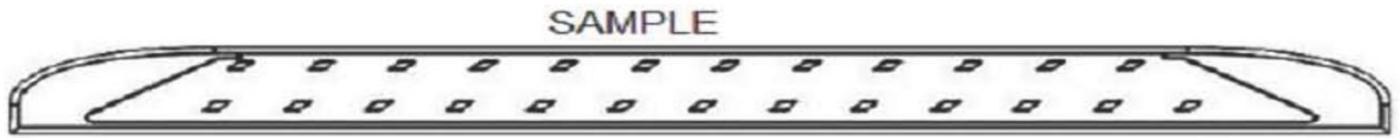

**Step 3:** Proceed to last page of this manual for running board install instructions and torque values

For Technical support please call our team at 1-866-717-6645 and one of our experts will assist you with this installation.

***Thank you for choosing Romik.***

# Running Board Installation Instructions

**RAL / RB2 / REC / RCV / RZR**

**ROB / ROF / RPD**

- 1) Flip your Romik running boards onto a flat surface, make sure to place the running boards on a towel or cardboard in order to protect the surface Figure 1.
- 2) Loosen the M8 bolts on back of your running boards Figure 2. Depending on your model there will be either 6 or 8 bolts installed per side.
- 3) Once your brackets have been installed, place the running board onto the brackets as shown on Figure 3.
- 4) Adjust running boards, centering on vehicle. Hand tight M8 hardware on running boards.
- 5) Follow the torque procedures, torque M8 hardware to **7 ft-lbs** using a torque wrench.
- 6) Cleaning and maintaining your running boards is important, apply a light coat of a quality carnauba wax at least 2X per year. Wash often with mild soap and make sure to remove all soap residue. Many car automatic carwashes use a strong soap, make sure to use enough water to remove all residue.
- 7) Register your products at [www.Romik.com/contact/productregistration](http://www.Romik.com/contact/productregistration)
- 8) Warranty information at [www.Romik.com/warranty](http://www.Romik.com/warranty)
