Installation Instructions 2622 Bracket Kit

NOTE: Due to the body design of the Gladiator JT there is a small visible gap in front and rear to review please visit www.Romik.com

Step 1: Locate front mounting locations and hardware as per 1st page of this installation manual All mounting locations are identical please review bracket direction during installation.

Step 2: Install bracket using supplied M8 hardware Figure 2 Do not tighten. Repeat for remaining brackets.

Step 3: Proceed to last page of this manual for running board install instructions and torque values

For Technical support please call our team at 1-866-717-6645 and one of our experts will assist you with this installation.

Thank you for choosing Romik.

Running Board Installation Instructions

NOTE: Use of power tools will damage the bottom of the running board and void your warranty.

RAL / RB2 / REC / RCV / RZR

ROB / ROF / RPD

- 1) Flip your Romik running boards onto a flat surface, make sure to place the running boards on a towel or cardboard in order to protect the surface Figure 1.
- 2) Loosen the M8 bolts on back of your running boards Figure 2. Depending on your model there will be either 6 or 8 bolts installed per side.
- 3) Once your brackets have been installed, place the running board onto the brackets as shown on Figure 3.
- 4) Adjust running boards, centering on vehicle. Hand tight M8 hardware on running boards.
- 5) Follow the torque procedures, torque M8 hardware to **7 ft-lbs** using a torque wrench.
- 6) Cleaning and maintaining your running boards is important, apply a light coat of a quality carnauba wax at least 2X per year. Wash often with mild soap and make sure to remove all soap residue. Many car automatic carwashes use a strong soap, make sure to use enough water to remove all residue.
- 7) Register your products at <https://romik.com/productregistration>
- 8) Warranty information at www.Romik.com/warranty
